MANY EVENTS OF INTEREST IN THE NEXT FEW DAYS.

Base-Ball, Rifle-Practice, &c .- A Suggestion as to a College League-Has Made a Favorable Impression-

BLACKSBURG, VA., May 8 .- (Sperial.)-Dr. Robert J. McBryde, rector of the Episcopal church of Lexington, and brother of President J. M. McBryde, has spent the week here preaching.

to increase very greatly the interest in college athletics. It is said that some of the teams of the State have secure the services of paid players, and with these have met purely college teams. Nothing is to be more deprecated, as tending to break up that generous rivalry in athletic sports between our colleges, which, when properly limited, is to be greatly commended. The question is being asked with great interest here and elsewhere, Why cannot several of our best institutions, such as Washington and Lee, Richmond College, Randolph-Macon, Hampden-Sidney, the Virginia Military Institute, and the Virginia Polytechnic Institute, and others unite and form an intercollegiate association, and thus finally break up this reprehensible practice? It is to be hoped that this matter will very soon be brought to the attention of the colleges, and cordial unanimity of sentiment and action be secured in all matters athletic.

Next week will be full of events of in-

terest to the Virginia Polytechnic Insti-tute. On Tuesday, the 11th, we play the Richmond College base-ball team on our own grounds. Owing to the fine reputa-tion that Richmond College has made by this season's work, this is expected to be one of the best games of the season. On one of the best games of the season. On the next day, field-day, in which great interest is taken, will be observed. On the 10th, 11th, and 12th, the ten students selected by Colonel Shanks to represent the Virginia Polytechnic Institute in the national contest of colleges in rifle-prac-tice at 200 yards distance will shoot here, and as some quite good scores have been made in the practice, this will he watched with intense interest. And then on Saturday, May 15th, takes place in Roanoke the match game of ball be-tween the Virginia Military Institutes and the Virginia Polytechnic Institutes, an event that is always a subject of great interest, being a friendly contest for mastery between two of Virginia's leading educational institutions. A number of our professors and stu-dents are in Roanoke to-day to witness

dents are in Roanoke to-day to witness the game to be played this afternoon between Washington and Lee and the Virnia Polytechnic Institute. I am glad to say that Dr. McBryde is out again and actively attending his duties after quite a sharp attack of in-tercostal rheumatism, which confined him to his house for several days.

MADE A GOOD IMPRESSION. The advent of a new pastor is always subject of great interest to the memers of his charge, and it is pleasant to bers of his charge, and it is pleasant to state that the Rev. Mr. Davidson, who has recently taken charge of the Metho-dist church here, has made a most pleaeant impression, not only upon his own people, but on all who have heard him. Colonel Shanks, of Salem, the father of Lieutenant David C. Shanks, paid his son and family a short visit this week. Miss Aiken, of South Carolina, is visit-

ing her elster, the wife of Professor Pritchard, and will remain with them next winter. Our community has sustained a severe their uniform courtesy, had

very greatly endeared themselves to our People.
The Lee Literary Society, for good and sufficient reasons, has finally concluded not to hold a celebration at commencement. On the evening usually devoted to this exercise one of the members of the faculty will give a reception at his

Captain Stockton Heth and family, of Radford, Va., have recently been occu-pying their beautiful country residence, White Thorn, situated three miles south

of Blacksburg. Mr. Baxter, president of the Alleghany Mining Company, was in Blacksburg this week on business connected with his mines near Christiansburg.

Mr. Meads Ferguson has returned to his duties from his home in Appomattox, where he was called by the severe illness of his mother, who died, however, before he was able to reach home. He has the warm sympathy of many loving friends in his sad loss.

In riding over this grand country, where the fields are beautiful and green in blue grass, one cannot but be struck with the fact that one sees no more numbers of fine colts frolicking across the fields or resting under the magnificent trees. And yet the reason is obvious. Owing to the low price of horses, men who formerly had a dozen colts each season have quit breeding, and in many cases have disposed of their brood mares. The result is that last year the writer did not see a dozen suckling colts, and se far this season has seen only two. Will not the result be to materially increase the price of horses in the near

BICYCLE ACCIDENT.

Professor W. B. Alwood, in returning from a trip to Franklin, whither, accompanied by Mr. W. D. Saunders, he had gone on professional business, was painfully but not seriously hurt by falling from his bicycle and striking a stone. one who knows the road from here to Rocky Mount, it goes without saying that it took two hardy riders to make the journey thither and back within three days; or, better, perhaps, to make it

ing, and yet your correspondent fails to discover the least interest in it. Not even the fact that the voters will be called on to decide at the polls whether they will call a constitutional convention serves to awaken any interest. I believe, however, that most of our people are decidedly averse to calling such a con-vention. Great interest is felt, howvention. Great interest is felt, however, in the place of meeting of the State Convention, and it is earnestly hoped that Roonoke may be designated as the place. This would give many of our people an opportunity of attending.

Miss Pauline Barnes, of Christiansburg, Is visiting her cousin, Mrs. Theo. P. Campbell, at her home on the campus.

It has often been remarked how fast the growth of the leaves of the silver maple is. To ascertain how much they grew in a given time, one was measured here recently. When measured it was \$4 of an inch long. In five days it was just 2 inches, having grown in that time

Mr. W. V. Brown, of Rocky Mount, Franklin county, was in Blacksburg on Thursday on a matter of business.
